

Equipment

Reciprocating Compressors

OBJECTIVES

- > To describe the working principle
- > To describe the main parts
- > To describe the system used to control the capacity of reciprocating compressors

TARGET AUDIENCE

The course is designed for: Process Managers and Engineers, Operators, Consultants.

CONTENTS

The Course Adopts An Interdisciplinary Approach To Data Acquisition And Covers The Following Topics:

- > Introduction
- > Basic Parameters of the Compression of Gases
- > Classification of Compressors
- > Reciprocating Compressors
- > Working Principle
- > Flow Rate Control

DURATION

5 days From 9 a.m. to 5 p.m.

ISS International Viale Manzoni, 28 - 00185 Roma - Phone: +39 06 97961201
Fax: +39 06 91657925 email - formazione@issinternational.it
